Forward Looking Statements

This presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended Statements preceded by, followed by or that otherwise include the words “believes,” “expects,” “anticipates,” “intends,” “projects,” “estimates,” “plans,” “may increase,” “may fluctuate,” and similar expressions or future or conditional verbs such as “will,” “should,” “would,” “may” and “could” are generally forward-looking in nature and not historical facts. Such forward-looking statements are inherently subject to risks, uncertainties and assumptions, including the following:

- our partner’s ability to successfully complete construction of various casino projects currently under development for which we have agreed to provide construction development funding, including Bally’s Chicago, and the ability and willingness of our partners to obtain timely the requisite regulatory approvals and meet and/or perform their respective obligations under the applicable construction financing and/or development documents;
- the impact that United States (“U.S.”) government, economic, monetary or trade policies and stimulus packages could have on inflation rates, interest rates, economic growth and discretionary consumer spending, including the casino operations of our tenants;
- geopolitical events, including recent conflicts in the Middle East, and their potential impact on U.S. Treasury yields and inflation rates;
- the ability of our tenants to comply with laws, rules and regulations in the operation of our properties, to deliver high quality services, to attract and retain qualified personnel, to attract customers and to maintain the financial strength and liquidity necessary to satisfy their respective obligations and liabilities to us and third parties;
- the availability of and the ability to identify and consummate suitable and attractive acquisition and development opportunities on favorable terms;
- the degree and nature of our competition;
- the impact of weather or climate events or conditions, natural disasters, acts of terrorism and other international hostilities, war, political instability or a new pandemic or similar national health crisis on the ability or desire of people to gather in large groups (including in casinos), which could impact our financial results, prospects, liquidity, and stock price;
- the ability of our tenants and borrowers to meet or perform their obligations under their leases and financing arrangements with us;
- our ability to generate sufficient cash flows to service and comply with financial covenants under our outstanding indebtedness and maintain or improve our credit ratings, and our ability to access capital through debt and equity markets in amounts and at rates and costs acceptable to GLPI;
- with respect to our tenant funding commitments, the amounts drawn and the timing of these draws may be different than what the Company assumed;
- the availability of qualified personnel and our ability to retain our key management personnel;
- changes in accounting standards or the U.S. tax law and other federal, state or local laws, whether or not specific to real estate, REITs or the gaming, lodging or hospitality industries and our ability to meet the applicable asset, income, organizational, distribution, shareholder ownership and other requirements to maintain the Company’s REIT status;
- other risks inherent in the real estate business, including potential liability relating to environmental matters and illiquidity of real estate investments; and
- other factors described in GLPI’s Annual Report on Form 10-K for the year ended December 31, 2025, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, each as filed with the SEC.

Other unknown or unpredictable factors may also cause actual results to differ materially from those projected by the forward-looking statements. Most of these factors are difficult to anticipate and are generally beyond the Company’s control. Given these uncertainties, you should not place undue reliance on these forward-looking statements. You should consider the areas of risk described above in connection with considering any forward-looking statements that may be made by the Company generally and any forward-looking statements that are contained in this presentation specifically. The Company undertakes no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless required to do so by law.

Definitions of Non-GAAP Financial Measures

FFO, FFO per diluted common share and OP/LTIP units, AFFO, AFFO per diluted common share and OP/LTIP units, Adjusted EBITDA and Cash Net Operating Income ("Cash NOI"), which are detailed in the reconciliation tables that accompany this release, are used by the Company as performance measures for benchmarking against the Company's peers and as internal measures of business operating performance, which is used for a bonus metric. These metrics are presented assuming full conversion of limited partnership units to common shares and therefore before the income statement impact of non-controlling interests. The Company believes FFO, FFO per diluted common share and OP/LTIP units, AFFO, AFFO per diluted common share and OP/LTIP units, Adjusted EBITDA and Cash NOI provide a meaningful perspective of the underlying operating performance of the Company's current business. This is especially true since these measures exclude real estate depreciation and we believe that real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. Cash NOI is cash rental income and interest on real estate loans, less cash property level expenses. Cash NOI excludes depreciation, the amortization of land rights, real estate general and administrative expenses, other non-routine costs and the impact of certain generally accepted accounting principles ("GAAP") adjustments to rental revenue, such as straight-line rent and deferred rent adjustments and non-cash ground lease income and expense. It is management's view that Cash NOI is a performance measure used to evaluate the operating performance of the Company's real estate operations and provides investors relevant and useful information because it reflects only income and operating expense items that are incurred at the property level and presents them on an unleveraged basis.

FFO, FFO per diluted common share and OP/LTIP units, AFFO, AFFO per diluted common share and OP/LTIP units, Adjusted EBITDA and Cash NOI are non-GAAP financial measures that are considered supplemental measures for the real estate industry and a supplement to GAAP measures. NAREIT defines FFO as net income (computed in accordance with GAAP), excluding (gains) or losses from dispositions of property, and real estate depreciation. We have defined AFFO as FFO excluding, as applicable to the particular period, stock-based compensation expense, the amortization of debt issuance costs, bond premiums and original issuance discounts, other depreciation, the amortization of land rights, accretion on investment in leases, non-cash adjustments to financing lease liabilities, straight-line rent and deferred rent adjustments, losses on debt extinguishment and other financing costs, severance charges, capitalized interest and provision (benefit) for credit losses, net, reduced by capital maintenance expenditures. We have defined Adjusted EBITDA as net income excluding, as applicable to the particular period, interest, net, income tax expense, real estate depreciation, other depreciation, (gains) or losses from dispositions of property, stock-based compensation expense, straight-line rent and deferred rent adjustments, the amortization of land rights, accretion on investment in leases, non-cash adjustments to financing lease liabilities, losses on debt extinguishment and other financing costs, severance charges, and provision (benefit) for credit losses, net. Finally, we have defined Cash NOI as Adjusted EBITDA excluding general and administrative expenses and including stock-based compensation expense and severance charges.

FFO, FFO per diluted common share and OP/LTIP units, AFFO, AFFO per diluted common share and OP/LTIP units, Adjusted EBITDA and Cash NOI are not recognized terms under GAAP. These non-GAAP financial measures: (i) do not represent cash flow from operations as defined by GAAP; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity. In addition, these measures should not be viewed as an indication of our ability to fund all of our cash needs, including to make cash distributions to our shareholders, to fund capital improvements, or to make interest payments on our indebtedness. Investors are also cautioned that FFO, FFO per diluted common share and OP/LTIP units, AFFO, AFFO per diluted common share and OP/LTIP units, Adjusted EBITDA and Cash NOI, as presented, may not be comparable to similarly titled measures reported by other real estate companies, including REITs, due to the fact that not all real estate companies use the same definitions. Our presentation of these measures does not replace the presentation of our financial results in accordance with GAAP.
